

Villa Divine

This divine villa is a brand new property nestled in the hills above Ornos Bay. The elevated position grants both great views over the Aegean sea and Mykonos Town with great level of privacy, both of which can be enjoyed from the various outdoor spaces.

The main terrace surrounds the entrance level of the main unit with a grand pergola providing shade to the outdoor lounge area, the extensive outdoor dining table and the functional bar area. Just a few steps away the private pool flows over its infinity edge in the most panoramic position of the terrace equipped with comfortable sun beds.

The two-part structure of the property gives both options of privacy and togetherness at will as the units are connected but can almost be used as stand alone houses due to the presence of 2 living rooms in each and kitchens. The hand of a skilled interior designer is evident throughout the property with a great display of refined furnishings and fittings in stylish, fresh atmosphere.

This villa is the ideal choice for larger groups looking for a stunning property made enjoyable by a strong penchant for chic, functional spaces combined with the intriguing panorama.
